

Why RSM2000?

Outsourcing your payments services provides a convenient, cost effective way of collecting single or regular payments from credit cards, via BACS or by Direct Debit. Below are just 10 of the many reasons that thousands of businesses across the UK choose RSM2000 to operate their payments services.

01 >>> Experience

With over 10 years experience providing payment services to companies, and charities, large and small RSM2000 now handles over £2bn of transactions a year and has become a leading innovator in its field.

02 >>> Value

By constantly monitoring the market RSM2000 always offers highly competitive rates and can provide individually tailored packages for larger volume clients.

03 >>> Security

- All systems are in physically secure locations and employ full data encryption
- Card payments are approved to PCI-DSS Tier one (the highest level)
- Direct Debit service has been assessed and rated by BACS as excellent

04 >>> Customer service

Real people with the right answers. Our UK based support team always provide the highest levels of advice and customer support.

05 >>> Resilience

RSM2000 facilities are dual located and use mirrored servers at both locations. Ensuring the highest level of data integrity.

06 >>> Systems monitoring

RSM2000 systems are monitored 24/7 by automatic fault detection applications and by our technical team.

07 >>> Reports

Access to your transaction reports is available 24/7 via secure web pages using your own unique login.

08 >>> Look and feel

You can tailor the look and feel of your payment pages to match your website using our simple web tools.

09 >>> Bespoke exports

RSM2000 can provide customised report exports to meet your specific requirements.

10 >>> In-house development

Our dedicated technical development team work constantly to enhance our systems and bring the latest innovations to our customers.
